[Aspiring Full-Stack Developer]

Adiss Ababa Ethiopia | [Phone 0924150429] [abenzertariku@gmail.com] | [GitHub abenzertariku-dev] |

PROFILE SUMMARY

I am a Full-stack developer skilled in the PERN and MERN stacks with hands-on experience building production-style e-commerce, portfolio applications. Seeking an entry-level developer role to apply strong problem-solving and modern web development skills.]

EDUCATION

[Degree / Program Name]

*[mistake with autoelcromechanical
[from2010] – [2014ec]*

TECHNICAL SKILLS

Languages & Web Fundamentals: JavaScript, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Material UI

Backend: Node.js, Express.js, REST APIs, Socket.io (real-time communication)

Databases: MongoDB, PostgreSQL

Integrations & Tools: Chapa Payment Gateway, Mapbox (GPS/location services), QR Code generation & scanning, Git/GitHub

Other: *[e.g., Docker, Postman, Figma — add your own]*

PROJECTS

E-Commerce Website — PERN Stack (PostgreSQL, Express.js, React, Node.js)

Tech: React.js, Node.js, Express.js, PostgreSQL, Tailwind CSS / Material UI, Chapa Payment Gateway

- Built a full-stack e-commerce platform with product catalog, cart, checkout, and order management.
- Implemented secure user authentication and role-based access for customers and admins.
- Integrated the Chapa payment gateway for local online payments and order confirmation.
- Designed a relational PostgreSQL schema for products, orders, users, and inventory.
- [Add: any unique feature you built, e.g. search/filtering, admin dashboard, order tracking]

QR-Based Attendance Management System — MERN Stack (MongoDB, Express.js, React, Node.js)

Tech: React.js, Node.js, Express.js, MongoDB, Socket.io, QR Code generation/scanning

- Developed a QR code-based attendance system for real-time check-in/check-out tracking.
- Used Socket.io to broadcast live attendance updates to admin/teacher dashboards.
- Designed MongoDB schemas for students/employees, sessions, and attendance records.
- Built role-based dashboards for administrators and attendees with attendance history and reports.
- [Add: any unique feature you built, e.g. analytics, notifications, export to Excel]

Personal Portfolio Website — Next.js

Tech: Next.js, React.js, Tailwind CSS, Material UI

- Designed and built a responsive personal portfolio to showcase projects and skills.
- Used Next.js for server-side rendering and optimized page performance/SEO.
- Implemented a clean, modern UI with Tailwind CSS / Material UI and mobile-first design.
- [Add: any unique feature you built, e.g. contact form, blog section, dark mode]
